Dear [Redacted]

As I discussed with you, this office is undertaking an assessment to determine the impact of materials conservation programs which might be initiated in response to restricted availability of resources. As part of this assessment it is necessary for us to establish material priorities. Since your organization can assist us with this information I would like to establish communications channels with the appropriate people. To this end I have initiated action to obtain the necessary clearances. When this has been arranged, I will contact you.

Thanks for your help.

Sincerely yours,

Marshall B Peterson
